

# Code Official Accreditation Program

Everyone deserves to live and work in safe buildings. Find a rewarding career in protecting the public as a building code official.

Enroll in this three-year online program to fill a continuing demand for qualified:

- \* **Permit Technicians**
- \* **Building Inspectors**
- \* **Plans Examiners**

## Code Official Accreditation Program

The first-in-the-nation college program designed to provide in-depth training unique to the State of Washington. You will receive a Certificate as an Accredited Code Official upon completion, which will **give you an employment advantage** anywhere in the State. Each year consists of three courses worth 9 credits.

**Year 1:** You will gain working knowledge of local city and county Permit Centers – Permit Technician

- Administrative and legal aspects of working in the regulatory side of the construction industry
- Customer service and communication basics at a public service center
- Basic understanding of construction codes

**Year 2:** Field Application of Construction Codes – Building Inspector

- Inspecting development at construction sites
- Communication techniques with builders & contractors
- Report writing and properly documenting permit records
- Inspector-level knowledge of construction codes

**Year 3:** Construction Code Reviews of Permit Applications – Plans Examiner

- Multi-discipline permitting, process and procedures
- Technical writing and presentation development
- Understanding the interaction of plans examiners and permit applicants
