Council Presents:*

**The 59th Annual
Building Officials
Short Course**

Introducing the 59th Annual Building Officials Short Course

Instructor: Doug Thornburg

Douglas W. Thornburg, AIA, CBO, is currently Director of Product Development for ICC and staff instructor. He instructs seminars nationally on the International Building Code. A graduate of Kansas State University and a registered architect, Doug has over 25 years of experience in building code training and administration, including ten years with ICBO, and five years with the City of Wichita, Kansas. He is certified as a building official, building inspector and plans examiner, as well as in seven other code enforcement categories.

Instructor: Steve Thomas

Stephen Thomas, C.B.O., has twenty-four years experience in working with building codes including plan reviews, inspections and administration. His firm provides building code consulting services for governmental agencies and architectural firms, as well as educational seminars on building codes. Mr. Thomas has served on several ICBO committees and currently serves on the ICC Means of Egress Code Development Committee. He has presented building code classes for over 17 years and provides an interesting and engaging look at codes.

Instructor: Tom DeMint

Tom DeMint is Battalion Chief with the Poudre Fire Authority in Fort Collins, Co. Chief DeMint has 30 years of experience in the field of emergency services with extensive code experience over the past 15 years. Tom's code experience includes the positions of Fire Inspection Coordinator and Assistant Fire Marshal with his department. He has instructed code classes for the past 10 years for individual department, ICBO, the Colorado Chapter Of ICC, the Fire Marshal's Association of Colorado as well as ICC. He developed his department's current strategic plan and served as the department's Training Chief. He is a member of ICC, Fire Marshal's Association of Colorado Code Development Committee, NFPA, International Fire Marshal's Association, the International Association of Firefighters and the International Association of Fire Chiefs.

Monday, October 25, 2010 2009 IBC Fundamentals - Nonstructural Provisions

This seminar focuses on the basic nonstructural concepts of the 2009 International Building Code® (IBC®). These concepts provide a basis for the correct utilization of the code. A clear understanding of the identified requirements allows the code user to apply the IBC in specific situations and helps to build an understanding of the intent of the code when asked to make a judgment on code compliance. This course will also help the code user to correctly locate

and recognize the interrelatedness of code requirements, as well as to begin to develop a procedure for applying them. It will address the organization of the code and the interrelation of the IBC with the family of International Codes.

Tuesday, October 26, 2010 2009 IFC Fundamentals

Familiarizes and assists code officials in locating, describing and applying applicable code requirements of the IFC to determine compliance or noncompliance.

Wednesday, October 27, 2010

1/2 2009 IEBC and 1/2 2009 IRC

The Attached Short Course Registration Form along with your check or money order must be received by September 29, 2010.
